SUPER IMPORTANT:
All these fields **MUST** be filled in correctly. If any of these details are incorrect, the transaction will be declined immediately.

Another reason causing this would be a lack of OTP confirmation. In the checkout process, customers will be sent an OTP code from their banks for confirmation of Checkout. This can be either through SMS or banking app. If they don't enter this code on time or enter it incorrectly, the transaction will also be declined

By continuing I hereby give permission for DPO Group to use personal information provided for the purpose of processing the requested transaction.
